### About Institution

Sagar Institute of Research Technology & Science-Pharmacy, Bhopal (SIRTSP) is a fruition of ardent efforts of Shri Agrawal Technical Education Society. The society with the core philosophy being literacy & education, established a B. Pharm course in 2007. It was subsequently upgraded to M. Pharm course in 2011. It is now established as unique centre of excellence at all levels of Pharmaceutical Education. The Institute runs under patronage of Technical University RGPV and is been affiliated & recognized by AICTE & PCI, New Delhi. The institute works on the mission & vision of imparting quality education in pharmacy and spreading the noble cause of profession by perusing research activities on collaboration with DST, DBT, IEDC, MPCST & associated area's industries.

### Agrawal Group of Companies

Agrawal Group of Companies is headed by Er. Sanjeev Agrawal who has committed to ensuring that all individuals are shown respect, treated fairly; and that each individual is valued. AGC is an umbrella of four different professional folds namely Agrawal Construction Co., Sagar Group of Institutions, Agrawal Power Pvt Ltd. and Agrawal Media Pvt Ltd.

Centre for Advanced Research & Expertise (CARE) is a unique platform established to cater to the needs of academia and industries in the terms of providing expertise and consultancy services in analytical method, analytical tools and research methodology.

### About Programme

This seminar will provide widespread knowledge for both Industry and Academic scientists who work in the field of Pharmaceutical Technology and enables the subject advancement and update the skills towards formulation development to bring out a successful product into the market. It will also provide enough guidance and expert knowledge relating to formulation developments which fulfill the need of the current therapeutics scenario. The seminar will have lectures from renowned speaker who will share their eminence in their respective fields and will give required guidance towards advances in the pharmaceutical technology.

This seminar will be unique in promoting the translational nature of modern pharmaceutical research with both industries and academia. This event would bring together leading academicians, researchers, allied professional and student to discuss and present the latest development in
